New Wall Chart★

The image shows a large wall chart titled "New-Era STARTER SOLENOID". The chart is organized into columns, each representing a different model of solenoid. Each column contains a grid of small images and text, likely detailing the specifications and features of each model. The chart is color-coded with various background colors for each column. At the bottom right of the chart, the text "New-Era Co., Ltd." is visible.

CHERRY BLOSSOM in JAPAN

From the late March through April and even into May, it is the season of "Sakura"(Cherry blossoms) in Japan. The cherry blossoms are in full bloom only for a few days. When the cherry blossoms are at their height, people view them in the mountains or in the parks. Some people get together under the cherry blossoms in the park and enjoy not only viewing the blossoms but also eating and drinking.
